

# ANDERSON Christmas Lights

Celebrating 30 Years of Christmas Lights in Anderson County.

## Light Bulb Sponsorship Drive 2023

With over 400 display units, 100 trees and 6 miles of roadway lights, it takes a lot of lightbulbs to keep the show spectacular. This is our 30<sup>th</sup> year of celebrating lights in Anderson County and some of the bulbs are not as bright as the others or just worn out. We need your help!

*LED lightbulbs have continued to go up in price. However, we found a supplier that believes in our mission and is helping us by a special one time buy. IF we order before September 1st, we can have them here by October 1<sup>st</sup>. The price drops for us from \$1.48 to .78 per bulb. We need about 9,000 new bulbs for this year. PLEASE! Consider helping us, light up Christmas, we need your support.*
